# ABSTRACT

4s Assurance Report Chemical Management  
Version 4.2

Tintseta S.r.l.

## 4s REQUIREMENTS

### Management system

Evaluating the implementation of a chemical management system within the company. The verified requirements range from the presence and communication of an internal sustainability policy, to staff training, as well as to the definition of reduction targets and monitoring of over-time performance.

### Chemical risk management

Assessing chemicals risk management within the factory. The verified requirements measure the chemical inventory information management, the related qualification level to ZDHC MRSL 2.0, and related pahse put plan and improvement plan.

### Materials risk management

Assessing the management and control system of incoming materials and their compliance level with 4sustainability PRSL, as a tool for reducing the risk of incoming contamination in the production process.

### Supply Chain assessment

Evaluating the company's supply chain management and assessment. The verified requirements measure the mapping activity, qualification, engagement, training and monitoring of subcontractors and material suppliers and all the procedures in place.

### Process management

Assessing the production processes management and traceability. The verified requirements measure the correct functioning of the internal traceability system and its digitalization. Morover it includes processe due-dilligence tests in order to monitor contamination on the products.

### Chemical Health&Safety

Assessing health and safety requirement linked to chemical management. The verified requirements range from labeling, handling and storage of chemical products within the factory, to emergency procedure and waste management.

### Output Management

Evaluating the company management of process output. The verified requirements range from legal permission for emission to the control of waste water according to ZDHC Guidelines. for internal and external processes and final product testing.

## 4S REQUIREMENT - IMPLEMENTATION LEVEL

## ASSURANCE RATING

77%

## ASSURANCE DATE

28/06/2022

## PRODUCTION MODEL

The company manufacture is a sub-contractor.  
The company carries out internal processes of Scouring, dyeing, finishing, digital printing, traditional printing, and outsources processes of finishing

Name of Internal Chemical Manager:

Michela Tatarletti

ZDHC accredited training course and date:

Wastewater Management, ZDHC Academy, 02/12/2020

## INPUT

### CHEMICALS

The production coverage is calculated from the meters of textile wet processed by the subcontractors.

TOT n. of verified chemical inventory:

2

## PROCESS

### CHEMICAL HIGH-RISK EXTERNAL PROCESSES SUBCONTRACTORS RATING

## OUTPUT

### INTERNAL WASTEWATER

Internal Wastewater Treatment Plant - POST TREATMENT MONITORING
